

# SNMP Manager

## Enhance the Capability of Power Monitoring and Management

SNMP manager with advanced ViewPower Pro software becomes an enhanced communication solution for UPS monitoring and controls. This SNMP manager card allows remote monitor and manage multiple UPSs from anywhere with internet access. ViewPower software will leverage internet capability of SNMP manager to remotely program or shut down UPSs. Equipped with SNMP manager and installed with Viewpower software, power conditions of all UPSs can be monitored anytime/anywhere even though the UPS units are located in different floors. Besides, this card also come equipped with easy-to-update firmware feature. Whenever the updated firmware is released, system manager can download it and simply upgrade all with one click.

### Features:

- Allows control and monitoring of multiple UPSs through RJ-45 network connection
- Real-time dynamic graphs of UPS data (voltage, frequency, load level, battery level)
- Warning notifications via audible alarm, broadcast, mobile messenger, e-mail and SNMP traps
- Historic data log stored in centralized PC database
- Simple firmware upgrade with one click
- Password security protection and remote access management
- Supports optional environmental monitoring detector for temperature, humidity and smoke
- 1-year product warranty

## SNMP Manager Specification

MODEL	SNMP Manager
Protocol Support	SNMP-V1, SNMP-V2
UPS Slot Type	Golden Finger
Network Support	RJ45 10/100BaseT
Supported MIB	RFC1213, RFC1628, Voltronic MIB
Supported Software	ViewPower
Supported OS	Windows family, Liunx, MAC, and Solaris
Supported Extension Devices	Optional environmental monitoring detector
Power Input	12V
Power Consumption	2 watt (max.)
Operating Temperature	0 ~ 40°C
Operating Humidity	0% ~ 95%
Dimension, D X W X H (mm)	23 x 47 x 15
Net Weight	34.7 g
